Education

M. H. Saboo Siddik College of Engineering — Mumbai, Maharashtra
Bachelor of Engineering in Computer Engineering (CGPA: 8.40/10 up to Sem VI) — *Sep 2023 – Present*

Higher Secondary Certificate (HSC) – Maharashtra State Board — Maharashtra, India
Science Stream (Percentage: 58.33%) — *2022*

Secondary School Certificate (SSC) – Maharashtra State Board — Maharashtra, India
General Studies (Percentage: 70.60%) — *2020*

Technical Skills

Programming Languages: Java, Python, C, JavaScript
Web Technologies & Frameworks: HTML5, CSS3, React.js, Node.js, Express.js, Flask, Jinja2, PHP
Databases & APIs: MongoDB, MySQL, SQLite, Google Sheets API
Developer Tools: Git, GitHub, VS Code, Android Studio

Projects

Cloud-Based Academic Department ERP System | *Python, Flask, Jinja2, HTML5, CSS3, JavaScript, Google Sheets API* 2026 – 2027

- Developing a department-focused web-based ERP platform to organize academic records and departmental information through a centralized interface.
- Designed a role-based workflow for Student, Faculty, Department Office, and HOD modules, with access to relevant academic information according to user roles.
- Planned student academic monitoring features for marks, attendance percentage, and academic status, alongside departmental record management and notices.
- Designed the application architecture using Python and Flask with Jinja2 templates; Google Sheets API is part of the documented data-layer technology stack.

Smart Waste Segregation Monitoring System | *Arduino, IoT Sensors, React.js, Node.js, Express.js, MongoDB* Jan 2026 – Mar 2026

- Designed an IoT-based waste monitoring concept using Arduino and sensors to monitor bin fill levels and moisture conditions.
- Developed a web dashboard concept for presenting bin status, fill percentage, waste-condition information, and alerts.
- Used a web application architecture with backend APIs and database integration for organizing monitoring data.

Mr Doc – Medical Helping Website | *HTML, CSS, JavaScript, MongoDB* 2025

- Developed a healthcare web platform to bring essential medical support tools together in a user-friendly interface.
- Worked on interactive chatbot and symptom-checking features to provide preliminary health guidance.
- Designed responsive frontend components and integrated data-handling functionality for user interaction.

Pet Care Assistant (PETPAL) | *HTML, CSS, JavaScript, PHP, MySQL* Jan 2025 – Mar 2025

- Developed a web-based platform concept for managing pet health records and daily care activities.
- Included features for vaccination tracking, medication reminders, feeding schedules, grooming reminders, and exercise planning.
- Planned a symptom-checking feature and a marketplace module for pet adoption and buy/sell listings.

Relevant Coursework

Data Structures and Algorithms, Object-Oriented Programming (Java), Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Web Development, Machine Learning (Basics)

Leadership and Extracurricular Activities

National Service Scheme (NSS) — Mumbai, Maharashtra
Volunteer — *2023 – Present*

- Participated in social-service initiatives, including blood donation drives, cleanliness campaigns, and public-awareness programs.
- Collaborated with volunteers to organize community outreach activities, demonstrating teamwork and social responsibility.

Alumni Cell – M. H. Saboo Siddik College of Engineering — Mumbai, Maharashtra
Editorial Team Member — *2026 – Present*

- Created written content, newsletters, announcements, and alumni updates to support communication between alumni and the institution.
- Coordinated with alumni members and committee teams on networking and engagement activities.
- Edited and prepared digital documents and communication materials for outreach initiatives.
